

PALLMANN® HARDWOOD FLOOR CLEANER

Commercial Concentrate

PALLMANN® HARDWOOD FLOOR CLEANER is a non-toxic, pH neutral formula specially designed for cleaning all types of clear, unwaxed wood floor finishes including oil-modified and waterborne polyurethane finishes. Also formulated for use on MAGIC OIL 2K finished floors, and safe for most hard surfaces.

Features

- Fully compatible for use on PALLMANN® MAGIC OIL 2K finish
- Exclusive neutral pH waterbased streak-free formula
- Great for daily cleaning of waterborne, solvent polyurethane and Swedish finishes
- No caustic or abrasive ingredients
- Fresh lemon scent

Technical Data

Packaging:	1 US plastic gallon makes 8 gallons of "ready-to-use" hardwood floor cleaner
VOC:	Zero
Scent:	Fresh lemon scent
Cleaning Tools:	Microfiber mop or lint-free cloth

Recommended Dilution Ratio

1. To make 1 gallon of Ready-to-Use Cleaner: Mix 16 ozs. of concentrate with 112 ozs. water in a gallon container.
2. To make 1 quart of Ready-to-Use cleaner: Mix 4 ozs. of concentrate with 28 ozs. of water in a 32 oz. spray bottle.

Directions for Use

1. Sweep, dust mop or vacuum before cleaning with PALLMANN® HARDWOOD FLOOR CLEANER.
2. Spray or mist a 4' X 6' area of your floor with the diluted cleaner and wipe with a pre-dampened microfiber mop. Wetting the mop helps loosen dirt on the floor surface and quickens the cleaning process. It is recommended to rinse your mop as it gets soiled during the cleaning process to avoid leaving a muddy residue behind.
3. To clean, simply move the mop back and forth. For stubborn spots, sticky spills and shoe marks, spray cleaner directly on the soiled area and wipe with a clean cloth or mop pad by hand if necessary.
4. For large areas, mix PALLMANN® HARDWOOD FLOOR CLEANER CONCENTRATE in a commercial mop bucket at the recommended dilution ration (1:7).
