
Furniture Floor Protection Service

Protect your hardwood floors from scratches, dents, and wear caused by everyday furniture movement. Our Furniture Floor Protection Service includes the professional installation of **commercial-grade tap-in felt glides** on the feet of your chairs, tables, and other furniture pieces. These glides contain **4 mm of heavy-duty felt material** for maximum durability—lasting **up to 5 years** without replacement under normal use. They act as a protective barrier between your furniture and your hardwood floor, allowing smooth movement without damage.

✓ Benefits

- **Scratch & Scuff Prevention** – Preserve your floor’s flawless finish.
- **Noise Reduction** – Move chairs and tables quietly.
- **Extended Floor Life** – Protect your investment for the long term.
- **Commercial-Grade Durability** – 4 mm felt pads stand up to daily use.
- **Custom Fit** – Glides selected to perfectly match your furniture feet.

🔧 Our Process

1. **Inspection** – We check each furniture foot for size and style.
2. **Cleaning & Prep** – Surfaces are cleaned for optimal glide adhesion or fit.
3. **Tap-In Installation** – Glides are securely fitted for lasting stability.
4. **Final Check** – We confirm smooth, safe movement on your floor.

🎹 Piano Protection

For grand and upright pianos, we offer **hardwood-safe piano coasters** that spread the weight over a larger surface area to prevent dents and compression marks. These coasters feature felt-lined bottoms for smooth repositioning and long-term floor protection.

👛 Office Chair Protection

Rolling office chairs can quickly wear through hardwood finishes. We provide **clear protective mats** designed specifically for hardwood floors, preventing scratches, dents, and finish wear while allowing smooth chair movement.

💡 Pro Tip

Although our heavy-duty tap-in felt glides can last up to 5 years, checking them periodically and replacing them when worn ensures uninterrupted floor protection.
